Manager Roelke Of Pratt Whitney Suggests Employees As Source Of Substantial Glades Citizenship

"In our other operations, statistics show that 10%, plus, of our employees come from communities located 20 miles or more from the plant, and comparative distances in Florida suggest that the same ratio will prevail down here," Manager Charles T. Roelke told a group of more than 200 Glades citizens Tuesday night at the annual "Glades Grown Banquet".

"A great number of our people, especially the second shift, like to have a garden or a chicken farm or some such avocation to take up the mornings, and I see no reason why the Glades should not benefit substantially from these conditions."

Mr. Roelke also stated that present projections of plans called for approximately 2,000 employees in '58, and that further activity is subject to the fast changing conditions of the industry.

"It is expected that the main plant will be completed in '58," he said, "and a substantial percentage of our employees will be scientists, technicians and specialists, with the balance of the group composed of semi-skilled and skilled labor. We anticipate that our employees will account for between \$12 and \$20 million yearly in expenditures in the area, and our coming is not expected to be an impact on the community. Rather we anticipate a gradual increase of activity so that our organization will become fused into and a part of the community without a major disturbance."

Mr. Roelke, in answer to a question, told his audience of the Company's policy towards scholarships. Annually there is granted scholarships to children of employees of two years association with the Company. There is also a substantial co-operation with employees in maintaining higher education leading to Master and Doctorate degrees in science and engineering.

In referring to the labor potential in the area, the speaker told of a blind aid for prospective employees. One aid for applicants for engineering, scientific and specialists positions in the New England area and one for the same thing for work in Florida. He reported

Pratt - Whitney Official Florida Family Guests At Glades Grown Banquet

MANAGER CHARLES T. ROELKE (2nd from right) and Mrs. Roelke and three members of the official family of the Florida Operations of Pratt - Whitney are shown with Representative Emmett Robinson, M. C., at the Annual Glades Grown Banquet held at the Country Club Tuesday night. In front of Mr. Roelke is an arrangement of vegetables which was made by the combined community Garden Clubs (Belle Glade, Chosen and Garden Study Club) and which was complimented by both local and visiting guests.

The bald head being supported by clinched fist is that of City Manager Robinson, while Commissioner and Mrs. Unwin are shown in left rear. Chamber Secretary Edwin Young is at extreme left.

Help Stamp Out TB By Having A Chest X-Ray Here On Feb. 12-16

Mrs. Ralph Freeman, TB Chairman for the Belle Glade Chosen area, urges all adults from the age of 15 and up, to cooperate in stamping out TB by turning out 100% for the Chest X-Ray survey which will be held here February 12 through the 16. There will be five units here at that time to take care of everyone.

In order to save some time, Mrs. Freeman announced that registration cards will be mailed to homes of all those eligible to take the X-ray and everyone is urged to fill out the cards and bring them along when you come to the unit for the X-ray. However if you do not have a card you may ask for another. These cards will be sent out the first week in February.

Units will be located in Belle Glade for white people at Bailey's Real Estate Office, Feb. 15 thru Feb. 16 each day, from 10 a.m. until 1 p.m. and from 2 p.m. until 6 p.m. A unit will be located at the Cotton

Club for the colored population from 1 to 4 p.m. each day and also from 5 to 9 p.m. in the evening.

The TB units will be at the Belle Glade High School on Friday morning, Feb. 15 and in the afternoon at the Lake Shore High School.

Small Sale Of 449 Follows Big Rain

Nature's pranks with the weather - rain had become a new experience in the Glades and hot weather following the rains - makes the grass grow greener and greener. Mid-winter grasses in the Glades must make folks from the snow country think it's time to go back home, until they read the weather reports from there.

Prices generally were steady. Supplies scarce, but the slaughtering took 57% of the offerings.

Sale, Monday, January 21, 1957
449 Cattle - \$29.80-83
57% to Slaughter - 43% to Stockers.

65 calves, 49 heifers, 115 cows, 205 steers, 14 bulls.

Slaughter Prices
Steers: 14.25-15.75, Uty. 13.00-14.25.

Heifers: 10.50-11.75, Uty. 11.25.

Calves: 10.50-13.25, Uty. 10.50-10.00.

Cows: 10.50-12.00, Uty. 12.75.

Calves: 10.50-12.00, Can. 8.75-10.25.

Bulls: Uty. 13.00-14.25, Uty. 12.25-12.50, Can. 9.50.

Compared to Last Week
Steers, steady, heifers, scarce; calves, 50 to 1.00 lower, cows, steady, bulls, steady.

Stocker Prices
7.00-10.75.

Calves: 10.50-13.50, Cows: 8.75-9.50.

Compared to Last Week
Steers, 50 higher, heifers, steady, Calves, steady, Cows, scarce.

Poll Tax Elimination Proposed By Holland

Senator Spessard Holland has reintroduced legislation in the United States Senate which would eliminate the Poll Tax as a prerequisite to voting in general elections. The poll, or capitation tax now prevails in five states, namely, Alabama, Arkansas, Mississippi, Texas and Virginia.

Holland's Resolution, in which he was joined by Senators

Smith, McNicoll, Ellender and Long, proposes an amendment to the Constitution which would require ratification by 38 states before becoming effective.

Holland said, "I feel very strongly that the poll tax, which has no place in our nation today, should be eliminated by adoption of a constitutional amendment rather than by a federal statute which would, I believe, violate the federal Constitution. I hope that this resolution will be speedy and

favorably acted upon by the Congress so that this matter which has been the subject of long and fruitless debate, may be quickly submitted to the states where I am confident it will be promptly ratified."

Put Up Signals Or Use Flagmen Says City To RR

By ordinance at its first reading the City Fathers Wednesday

agreed that the Florida East Coast Railway must put up warning signals with lights or station flagmen at four crossings.

The provisions of the law are that signals will be placed at 33rd Avenue L, WPB Road, 2nd Lake Road and Northwest

Avenue B. The first three must be in by May 17th and the last by August 17th.

The law also provides that after March 31, 1957, a flagman will be put on crossings until the signals are installed.

The trains can't legally make more than 20 miles per hour in passing thru the City either.

City Manager Robinson was also directed to go to Daytona to confer with engineers concerning details of the proposed water improvement program and to definitely determine what, how much and when on general items not now clear in the plans and specifications.

Ordinance To Allow Liquor Sold On Ave. "E" Directed By Commission

The City Commission directed the drawing of an ordinance which will allow the opening of a liquor store on Avenue "E" on Jols 9-10 and 11 of Hollaway Third Subdivision. It is expected to come up for first reading at the next meeting.

This is the same area over which considerable discussion has been had before on the question.

The City Fathers also decided to allow Jesse Brown to have a taxicab license because of his years of rectitude as a citizen here and also because of the doubt of his guilt in a former cross chain the law.

Home Demonstration Members Tour Glades

Mrs. Mary Todd, HD agent, announces that on Thursday, January 31st a group of Home Demonstration members will leave the Mounts Building at 9:30 a. m. for a visit to the Glades.

They will visit the Experiment Station, the Ramie plant and will be guests of the Belle Glade HD Club at a tea at 2:30 in the afternoon.

A trip will also be made to the Clewiston sugar mill during the day.

Mothers March Set For Jan. 31

The annual Mother's March on Polio is slated for Jan. 31, according to Mrs. William Graber, chairman for Beta Sigma Phi Sorority who is sponsoring the March in the Belle Glade area.

The march is county wide with some 10,000 volunteers enrolled. The sorority members will meet at the home of Mrs. Graber at 7 p. m. Thursday night and make door to door

C & S F F Control District Pumps Make Staunch Friends Of Farmers With Expeditious Removal Of Water

South Bay Legion Gives '57 Forward Control Jeep

The South Bay Legion is out to increase the building fund of the Feed, and is not begrudging their having their annual Building Fund Dinner, with the public invited to the feed and

The South Bay ladies, famous for their sumptuous feeds and appetizing pies will contribute their best on this occasion, and your attendance is invited. Tickets for the feed will be available at Bowen's Service Station, Glades Restaurant, Ray's Smokehouse, South Bay Truck Stop, Clayton Waters Service Station and Concrete Products.

As an added inducement there will be given away a '57 forward control jeep, equipped with deluxe cab, airfoam cushions and tax will be paid.

Enjoy a good feed, good fellowship, help the Legionnaires get a modern home and maybe win a jeep.

Dr. Van Nostran On Station Staff

Dr. Frederick E. Van Nostran, assistant Plant Pathologist has recently joined the staff of the Everglades Experiment Station. His work will be associated with that of Dr. R. S. Cox and will involve more fundamental study of the disease organisms which are such a problem to our vegetable growers.

A native of Canton, Ohio, Dr. Van Nostran moved to Huntington, West Virginia during early childhood where he grew up and attended high school. He received his B.S. and M.S. degrees from Marshall College in Huntington and recently received his Ph.D. degree in Mycology from Michigan State University.

(Continued on page four)

Prices Steadier As Rains Slow Down Carol Movement

No authority will predict the damage to Glades vegetable crops and all said it will take several days yet before the exact damage can be determined.

Colony seems to have been damaged the least; with other leaf crops only time and the sun will determine what damage was done. In the meantime, the demand is stronger and prices are stiffening for what is shipping out.

The rain seems to have run from a 3.25-inch fall at Twenty Mile Bend to a maximum of eleven to twelve inches in the South Bay - Lake Harbor area.

Critical Deficiencies Of Water System To Be Corrected In A New Plan For Additions And Refinement

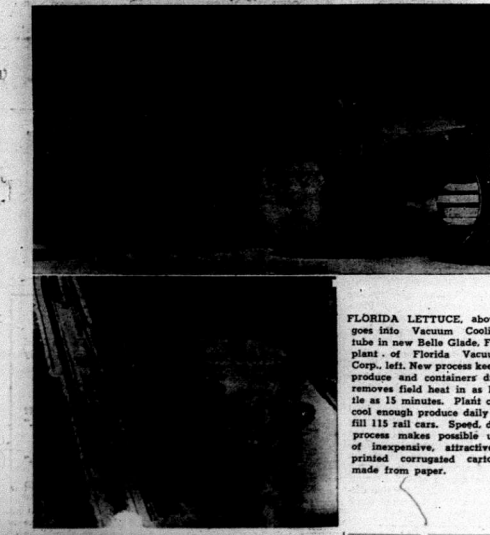

CLARENCE THOROP, (left) Manager, Foreman, Paul Bearden and crew make a quick repair to a leaky main at the corner of Avenue E and South Main street. This is one of the six-inch mains to be replaced with a twelve inch pipe.

There's a discoloration and an odor at times that forces users to patronize the better-water boys, and causes great dissatisfaction.

The fire-fighting abilities of our department have been greatly hampered by lack of pressure and volume of water, and not enough hydrants and pumps have been placed.

The State Board of Health has been notified of the impurity and healthful properties (Continued on Page Eight)

Vacuum Cooling Service Offered Glades Farmers In Modern Three Quarter Million Dollar Plant

Experienced Operators Offer Capacity Service To Community's Major Crops

Modern large-scale vacuum cooling service is available to the growers and shippers of Florida's multi-million dollar crops of citrus, watermelon, cantaloupe and other fruits and vegetables. With the initial operation here today of the first such plant in the South.

FLORIDA LETTUCE, above, goes into Vacuum Cooling tube in new Belle Glade, Fla. plant of Florida Vacuum Corp. left. New process keeps produce cool and contains dry, removes field heat in as little as 15 minutes. Plant can cool enough produce daily to fill 115 rail cars. Speed, dry process makes possible use of inexpensive, attractively printed corrugated cartons made from paper.

Vacuum Cooling Corp., a subsidiary of companies who are successfully operating the process in the western states.

Vacuum cooling, a modern method of refrigeration requiring no contact with ice or water, extracts the field heat from produce and vegetables in as little as 15 minutes. Since the commodity and container are grown annually, by Florida

In compliment to Patti Ingram, bride-elect of C. M. (Mike) Kelly, a lingerie shower luncheon was given at the home of Mrs. Harold Tedder last Saturday. Hostesses were Mrs. Tedder, Mrs. Bayard Tinsaint of Lake Harbor, Mrs. Arthur Levy and Mrs. Randy Forrest.

The guest of honor was taken on a treasure hunt to find the gifts. The hostesses presented her with a lovely regalia.

Guests present were Mrs. Ray Caldwell, Mrs. David Phelps, Mrs. J. Wilford Markham, Mrs. W. S. Ingram, Miss Patsy Crepps of Miami and Miss Pat Figueroa.

Assistance Offered On College Site Title

The County Commission this week voted to take whatever steps necessary to help speed up clearing land titles at the Boca Raton airfield in order to clear the way for proposed construction of a new state university.

The Boca Raton site was selected last week by the State Board of Control as its choice for location of a new four-year college.

Reporting on the Board of Control meeting, Commissioner Lake Lygal said the Boca Raton site was picked by the state as it is centrally located in the prospective student population from Palm Beach and Broward counties.

Lygal said the Boca Raton site approval by the State Board of Education is contingent on local interests being able to clear up land titles to transfer to the state within the next 12 months.

In addition to its decision to give all aid possible for the title project, the commission also voted not to make any major changes in John Prince Memorial Park at Lake Worth until the Boca Raton site has been cleared. A site in John Prince Park and a site at Indian Trail Ranch were also offered as locations for the new university.

Commissioners Lygal and Roy Michael, plan to be in Tallahassee January 29 for further discussions with the Board of Education on the college site.

Rainbow Officers Installed In Impressive Rites

OFFICERS FOR 1957 OF THE ORDER OF RAINBOW installed Monday night at the Benevolent Hall were (l-r) Seated: Carol Allen, recorder; Bunnie Whitehurst, treasurer; Sandra Gove, Charity; Cline Faulk, Worthy Advisor; Linda Gail Mobley, Worthy Associate Advisor; Donna Mae Armstrong, Hope; Sherry Mixson, Faith; Beck Row (l-r) Mrs. Mary Schlechter, mother advisor; Nancy Layfield, drill leader; Bonnie Paige, religion; Marsha Brent, nature; Mary Ann Tillery, immortality; Pat Smith, fidelity; Iris McMullen, promotion; Karen Gove, service; Nedra Wiser, love; Paula Parson, chaplain; Carol Goforth, confidential observer. thers on Feb. 4 to further discuss plans for the district meeting and workshop.

"TOO LATE TO CLASSIFY"

By Russell Key
More than a million smiles have been distributed in Florida in recent years. The trick was done with cards — the business variety.

Up and down the peninsula, business cards are seen, carrying the contagious word, "SMILE" in tall red letters. They pass from hand to hand and are pasted, clamped or pinned in the most unexpected places. Faded and worn from wear, they crop up like the

meter of a taxi or a rent-a-car in waiting rooms, in Greyhound or Trailway buses, in department stores, most any place.

Multiplying by hundreds of thousands of people who respond to their cheerful message, it is safe to assume the cards have generated smiles by the billions. They were introduced in Florida by a company engaged in the business of generating electricity in its power plants and good will in the communities it serves, the Florida Power and Light Company.

Employees have their names printed on the reverse side and use them for call on customers. Wherever they go, the "smile" cards seem to produce happy results, and they go far and wide. Vacationers who encounter them on visits to Florida take them home to other states, helping to spread Florida sunshine and good will everywhere.

The same utility company sought a means of promoting traffic safety and decided to present an age-old theme in a new way. They came up with colorful bumper strips that read, "In Traffic, As Always, DO UNTO OTHERS" and "Courtesy Wins Friends for Florida and You." Printed on decal strips, easily attached to bumpers, they caused a flurry of excitement and motorists as well as business and civic organizations used them on their cars and commercial vehicles.

"Do Unto Others" became the theme of a traffic program in Florida schools and women's clubs; a minister in Indiana used the bumper strip as the basis for a "Do Unto Others" Sunday. Law enforcement officials placed the strips free and aft on police vehicles.

To date more than 80,000 have been distributed, with 90 per cent going to civic and church groups. Thousands of individuals dropped by company offices to secure strips for their own use.

To further spread the gospel of "Smiles" and "Do Unto Others" decals of various types and sizes carrying the messages were prepared by the company. Stickers small enough to be pasted on your telephone admonished "Courtesy." They were featured in newspaper ads in direct mail and on radio and TV. Letters of inquiry came pouring in from Canada, Rio de Janeiro, Hawaii and Germany. Insurance companies, airlines, show manufacturers, transit companies, the American Automobile Association, all asking for information.

As it does with all such material, the company offered free use of the material adapted to individual needs. Organizations, particularly those dealing with the public such as chambers of commerce, the National Association of Travel Organizations, got behind the move. Advertising Clubs and the Florida Public Relations Association supported the program.

The Florida Power and Light Company, serving one of the nation's fastest growing areas, has more than quadrupled its generating capacity since V-J day, a tremendous building program is in progress, targeted for 1,440,000 kilowatt capacity by 1959.

While its growth has broken

all records in the state, its program to increase courtesy-consciousness and build good will for Florida has more than kept pace, and it is a toss up as to whether the power generating department or the good will generating department is in the lead. All Florida thanks you, TPAL, for a job well done. May your generation of SMILES and COURTESY always keep pace with your production of electric power.

Holland Approves Budget Figures On Agriculture
Senator Spessard Holland expressed approval today of the \$13,755,555 requested by President Eisenhower for agricultural research and pest control activities in Florida during the coming fiscal year.

The President's budget request for Florida includes:

Field Crops — \$115,333
Horticultural Crops — 330,485
Entomology — 406,477
(Approx. \$75,000 for spray worm research)
Soil & Water Conservation — 32,970
Agr. Engineering — 28,955
Production, economics, Animal and poultry husbandry — 51,632
Parasites — 35,700
Southern Utilization Lab. — 316,076
Control and Regulatory Work Plant Pest Control — 865,000 (includes work on burrowing nematode, medfly)
Plant Quarantine — 272,800
Animal Disease Control and Eradication — 576,400
Quarantine — 44,800
Meat Inspection — 83,500
Holland said, "The President's request for over \$3,000,000 should be enough money for the coming year, barring unforeseen eventualities, and clearly shows that proper consideration is being given Florida's preeminent position in the general field of agriculture and animal industry."

District Flower Show Judges Meet Held Here Jan. 22

Members of the Florida Council of Flower Show Judges, District 10 and 11, held a joint meeting at the Everglades Country Club here Tuesday.

After short business meetings, held separately, of the two districts, Mrs. Howard M. director of District 10, presided over a joint meeting.

Mrs. Luther Jones, chairman of the entertainment committee, composed of Mrs. Ivan Van Horn, Mrs. Herbert Beck, Mrs. Irwin Zump, Belle Glade, and Mrs. C. C. Lemonds, Pahokee, welcomed the members and guests present.

Mrs. H. Lynwood Price of Jacksonville, state president, gave a short, inspiring talk. She urged attendance at the state meeting April 8-10 in Lakeland.

Others introduced included Mrs. J. J. Hyde, Miami, director of District 11, Mrs. Her-

man Schoonbeck, Palm Beach, state secretary; Mrs. Covington Riley, W. Palm Beach; Mrs. Wm. Allison, Ft. Lauderdale; and Mrs. Ivan Van Horn, City, members of the executive board of the Florida Federation of Garden Clubs.

Mrs. Palm Hemker, W. Palm Beach, gave an interesting talk on the judging of unusual potted plants. Mrs. Van Horn talked on the judging of hibiscus.

During the afternoon session, Mrs. Byron Simmon, Palm Beach, demonstrated Artistic Flower Arrangements, giving many valuable hints on the latest mechanics and methods.

Attending the affair were: Mrs. Paul Ochiltree, Mrs. S. B. Rohrer, Mrs. John M. McDonald, Miami Beach; Mrs. J. O. Hyden, Mrs. Robert C. Stokely, Mrs. D. L. Gattis, Mrs. Chas. Hawkins, Mrs. Henry Freeman, Miami; Mrs. Harry E. Grim, Mrs. F. F. Diehl, Coral Gables; Mrs. Herman Schoonbeck, Mrs. Byron Simmon, Palm Beach; Mrs. W. Wipprecht, Jr., Kendall; Mrs. Joe Fleming, Mrs. Graham King, Delray Beach; Mrs. Fredrick A. Price, Mrs. A. R. Mullins, Ft. Pierce; Mrs. Wm. Allison, Mrs. D. S. Pearl, Mrs. C. Kay Davis, Ft. Lauderdale; Mrs. Andrew Garke, Mrs. James Mann, Hollywood, Mrs. Pat Woodall, Mrs. James M.

Commissioners seated (1 to 7) Ben Sundy, Roy Michael, vice chairman; Kenneth Foster, chairman, Lake Lytal and Paul Rardin. Not shown: J. J. Baker, Glades road and bridge superintendent with 12 years of service.

Boys and Girls In Service

Miami, Fla. (PHNOC)—Marine Pfc. John T. Glisson, son of Mr. and Mrs. Ervin Glisson of 101 S. W. Avenue F, Belle Glade, Fla., is serving with the Marine Corps Air Station at Miami, Fla.

He reported to Miami January 3 from Marine Corps Air Station, Kaneohe Bay, T. H. Glisson has been assigned to Marine Air Base Squadron 31 for duty with communications. Before entering the service in June 1954, he graduated from the U. S. Armed Forces Institute.

MUNICH (AHTNC)—Army Pfc. Warren O. Morgan, Jr., whose parents live in Clewiston, Fla., recently participated with the 11th Airborne Division in "War Hawk," a field training exercise in Germany. A radio operator with Battery B of the division's 99th Field Artillery Battalion, Morgan entered the Army in June 1955 and arrived in Europe in March 1956. The 19-year-old soldier is a 1955 graduate of Clewiston High School.

CAMP PENDLETON, Calif. (PHNOC)—Pfc. Jesse L. Bowers, son of Mr. and Mrs. Sam Bowers of 2 Vanden Schoeweg St., Belle Glade, Fla., is participating in "Operation Ski-Jump" with the 1st Marine Division, during the period Jan. 1-23. "Ski-Jump," a large-scale maneuver utilizing land, sea and air forces of the Marine Corps and Navy, is taking place at Camp Pendleton, Calif., and at sea, employing over 50,000 men and more than 100 ships. The 1st Marine Division, supported by the 3rd Marine Aircraft Wing, has been storming the beaches of the Camp Pendleton reservation since Jan. 17 and will continue to maneuver ashore until Jan. 23. Both conventional landing craft and the Marine conception of "vertical envelopment" by the use of transport helicopters are being utilized.

Practically all versions of modern warfare are being put into use: naval bombardment, amphibious landing, close air support, seaplane-borne invasion, and mass evacuation and replacement.

Marine Corp Offers New Buddy System

Train together and remain together during "boot" camp. That's the deal now offered applicants for the Marine Corps who join under the new "buddy" system. Until the end of March '57, men signing up for a tour of duty in the Marine Corps can be guaranteed assignment with their buddy to the same recruit platoon. However, they must be enlisted together in order to qualify for the buddy plan. The buddy system was adopted by the Marine Corps on an experimental basis to encourage friends to enlist together and preserve the "home town spirit" during the all-important transition from civilian to Marine.

In addition to 12 weeks of recruit training together under the buddy system, applicants may also be guaranteed an assignment to aviation school upon their request under the Corps' expanding aviation program. Such a request should be made at time of enlistment and is effective upon completion of basic and individual combat training. All students are first assigned to the aviation school at Naval Air Station, Jacksonville, Fla. For additional information about the buddy system and assignment to an aviation school, applicants should consult their local Marine Corps recruiter, who is at the Draft Board each Tuesday from 9:30 a. m. until noon.

New Income Tax Booklet Available At Tax Office Valuable To Taxpayer

The new and revised instruction booklet received by Florida Federal income taxpayers with their 1956 forms is the best and most useful ever de-

vised by the Internal Revenue Service, District Director Laurie W. Tomlinson said yesterday in urging area taxpayers to read it carefully before and while they prepare their returns for last year.

"After a preliminary statement of general aims and purposes, instructions in the new

booklet follow the Form 1040 on a line by line basis — for the first time in the history of Federal revenue collection. Taxpayers should find this a special boon," he said.

"The instructions themselves have been made as simple as can be on a series of subjects to thousands if not millions of

individual situations and circumstances. When a taxpayer reads any given section of the form with which he is concerned, he no longer has to hunt back and forth in the booklet for guidance. It's in the same arrangement as the form and he has it ready at hand.

"There will still be questions

and problems. We're prepared to help with answers on the phone — as we think most can be handled — or in visits to our office for more detailed explanations.

"I think, incidentally, that the new type used this year in forms and booklet will meet with taxpayer approval, even if only because it's easier on the eyes. Our new approach to this key phase of tax collecting is one more justification of our title — the Internal Revenue Service."

Director Tomlinson today issued the following statement in answer to inquiries by taxpayers who wish to file an income tax return, Form 1040, and pay the balance of tax due on or before January 31, in lieu of paying their estimated tax liability otherwise due on or before January 15, 1957.

"A taxpayer who would otherwise be required to pay the unpaid balance of his 1956 estimated tax liability not later than January 15, may, in lieu of making the payment at such time, file his final income tax return, Form 1040, on or before January 31 (February 15 in the case of farmers), provided the

balance of tax computed on the return as payable is paid with the return.

"This relief measure, which in effect postpones the January 15 payment of estimated tax until January 31, may be utilized by any taxpayer who (1) was not required to file a declaration during 1956, but is first required to file a declaration on or before January 15, 1957, or (2) is required to file an amended declaration on or before January 15 showing a different estimated tax than on a declaration previously made, or (3) is required on or before January 15, 1957, to make the final payment on his estimated tax liability shown on a declaration previously made."

Draft-Deferred Men Must Fulfill Duties

Under a new Presidential Executive Order and Selective Service directive, draft-deferred personnel who fail to carry out their National Guard or other reserve obligations must be drafted. According to this new order and directive, a man who is certified by his unit command-

er to have failed to perform satisfactorily will be drafted within 30 days irrespective of the size of the board's draft quota or the individual's dependency, job or other factors. This procedure applies to individuals who joined before reaching age 18½, and personnel who acquired a service obligation along with their Reserve Forces Act enlistment in the guard or service.

These certified personnel will be drafted into the service component they were serving. For example, if they were in the Army Guard or U. S. Army Reserve, they will be drafted into the active Army. If they were serving in the Air National Guard, they will be drafted into the active U. S. Air Force.

COLD SUFFERERS

Swain, Mrs. Frank Robertson, Mrs. Jake Ryan, Mrs. David Brantley, Mrs. John Johnson, Mrs. Jake Newman, Mrs. J. A. Henderson, Mrs. Vernon Henderson, Mrs. Doyle Worth of Clewiston, Mrs. F. M. Campbell, Jr., Mrs. E. M. Johnson, Mrs. Louis Motes and Mrs. B. M. Motes of Belle Glade.

Hostesses were Mrs. Y. E. Smith, Mrs. J. E. Hester, Mrs. Myrtis Motes and Mrs. Mary Frances Gilliam.

Program On Safety Heard At PTA Meet

The Lake Harbor P.T.A. met at the school Tuesday evening with the president, Mrs. Jim Spires, presiding. After the salute to the flag, the devotional was given by Dr. DiStefano. Mrs. J. D. Hemphill read the State Vice President's letter. There was a short business session, after which Trooper Jack Waldren of Miami, showed a picture on safety hazards and careless mistakes. He followed this with a very informative talk on how to avoid so many accidents. Trooper Waldren was accompanied by Trooper Tom Joyce and Wm. D. Moore.

Mrs. Jim Spires and Mrs. Jim Walls were hostesses for the evening. Others attending were Mr. and Mrs. Bill McNeil, Mr. Lloyd Williams, Mrs. L. McKinley, Mrs. Marvin Lee, Mrs. Frank Robertson and Mrs. A. B. Mathis.

Ways To Decrease Teen-Age Fatalities Told At Conference

W. A. Slauder, local Driver Education instructor, attended the three day conference of the Driver Education and Safety Association which was held at Daytona Beach. This conference was sponsored by the State Department of Education, The Highway Patrol, The AAA and the Insurance Companies of Florida.

Many issues, as to how to decrease deaths on the highway and license laws were discussed. One of the main topics, at all sessions was how to decrease teen-age fatalities. Two ways to do this was unanimously endorsed by all those present, and they should be of interest to the public, because parents of teen-age children will be the largest number of persons involved.

The number 1 issue was to increase age limits for restricted license to 15 years and that of an operator's license to 16 years, with an interesting clause added, stating that licenses should be granted at 16 to all boys and girls who had taken Driver Education in the Public Schools.

The number 2 issue was that of more strict law enforcement. Colonel Kirchman of The FHP said that the law was the law and as parents and public minded citizens we should be interested in saving as many teen-age lives as possible.

At a poll taken, 90% of the school were using automatic shift cars and all Driver Education teachers agreed that this was the best way to teach new drivers and they also agreed that the transition from automatic to the standard shift was more easily accomplished.

Driving has become one of the most important phases of school training and more teachers are needed as the program enlarges to the place where all schools will be using Driver Education. Automatic shift car for 1956-1957 was furnished by Bob Davis Lake Buick, Inc.

Indiana Residents Visit Glades For Third Winter

Mr. and Mrs. Wendell Nelson of Argus, Indiana, accompanied by two daughters, Wendy Jane, five and Judy, two, have returned to the Glades for the third winter, and are living in the Pennington Apartments.

Mr. Wendell is a grain farmer in the South Bend area, specializing in corn, wheat and soy beans.

He has his eye on the Glades as a likely permanent residence and a proper place to rear his family.

Boy Scout News
Boy Scout Troop 26 reorganized Thursday night in South Bay with George King, field executive being present.

Leland Hardy Scout Master reported three patrols were formed, Bob Cuts, Buffalos, and Panthers. The group will meet each Friday night at 7:30 at the Legion Hall.

Cub Scout Den 1 went on a hike Thursday afternoon with Dick Willis and Bob Murray furnishing a picnic lunch for the Den. Entertainment was provided by Larry Bowen and Bob Murray in the form of a skit while they ate.

Others on the hike were John Brown Evans, Buddy Goodbread, Bert Davis, Neil Walker, Dan Willis, Den chief, Mrs. Frank Willis, Den mother, Mrs. W. W. Murray, assistant Den mother accompanied the boys.

Commander Allen urged every one to turn out to this affair and the drawing for the jeep, as the proceeds will be used to finish the American Legion Home. All members who have not paid their 1957 dues are requested to do so.

South Bay School News
Linda Wilder - Sharon Prevatt
On Friday, January 18, the 8th grade presented a play called "Days and Days". The three act skit was enjoyed by everyone, and the children participating knew their parts extremely well.

Taking part in the cast were the following: Devotional, Karrel Phillips; announcer, Helen Zwick; Larry, Larry Morrison; mother, Daphne Henderson; Mr. Moore, Malcolm Hitchcock; Neglected Days, Jeanette Brooks, Rebecca Mathis, Willie Anton March, Bonnie Keller; Forgotten Days, Glady Smith, Mary Lee Little, Margaret Kirkland, Jo Ann Boatwright; Red Letter Days, Nancy Goodbread, Billy Goodson, Sharon Wilder, Suzanne Willis; stage designers, Ginger Crichfield, Billy Wall, Terry Boatwright, Raymond Olawski.

Red Cross
The Red Cross meeting was held last Thursday in Belle Glade. Mrs. Smith, Ginger Crichfield, Laura Rogers, Helen Zwick, Larry Morrison, and Mrs. Martin represented us. The next meeting will be in South Bay Feb. 21. Nut cups which the group have been making will be sent to the local hospital.

The semester tests start Wednesday 23. We wish all kids luck. There will be no school Friday, Jan. 25, due to reports that have to be made.

Beach: visited Sunday at the home of his sister and family, Mr. and Mrs. W. M. Jeffries.

Mr. and Mrs. John Lamoureux and family have moved from Beach City and are now making their home in Belle Glade.

Mr. and Mrs. James Jackson and children, Jimmie and Dennis, attended the PBC Fair in West Palm Beach on Saturday night.

Mrs. Dora Rhine of Fort Lauderdale was a week-end guest of her sister and husband, Mr. and Mrs. Red Miller.

Susan Allen of Belle Glade spent the week end with her grandparents, Mr. and Mrs. W. C. Allen.

Mr. and Mrs. T. E. Weathers and boys of Moore Haven spent Sunday with Mrs. Weathers, Mr. and Mrs. W. M. Jeffries.

Guests of Mr. and Mrs. Jessie Barnes over the week end were Mr. and Mrs. George DeVane and daughter, Kathy of Lakeland. Mrs. Barnes and Mrs. DeVane are sisters.

Mr. and Mrs. Jim Clup and Deborah of Fort Lauderdale were week end guests of Mrs. Red Miller, aunt of Mrs. Clup.

Mrs. Anna Kelly of West Palm Beach spent the week end with her son and family, Mr. and Mrs. F. W. Kelly in South Bay.

H. C. Willis who was under observation for a week at Belle Glade Memorial Hospital has returned home.

Boy Scout News
Boy Scout Troop 26 reorganized Thursday night in South Bay with George King, field executive being present.

Leland Hardy Scout Master reported three patrols were formed, Bob Cuts, Buffalos, and Panthers. The group will meet each Friday night at 7:30 at the Legion Hall.

Cub Scout Den 1 went on a hike Thursday afternoon with Dick Willis and Bob Murray furnishing a picnic lunch for the Den. Entertainment was provided by Larry Bowen and Bob Murray in the form of a skit while they ate.

Others on the hike were John Brown Evans, Buddy Goodbread, Bert Davis, Neil Walker, Dan Willis, Den chief, Mrs. Frank Willis, Den mother, Mrs. W. W. Murray, assistant Den mother accompanied the boys.

Commander Allen urged every one to turn out to this affair and the drawing for the jeep, as the proceeds will be used to finish the American Legion Home. All members who have not paid their 1957 dues are requested to do so.

South Bay School News
Linda Wilder - Sharon Prevatt
On Friday, January 18, the 8th grade presented a play called "Days and Days". The three act skit was enjoyed by everyone, and the children participating knew their parts extremely well.

Taking part in the cast were the following: Devotional, Karrel Phillips; announcer, Helen Zwick; Larry, Larry Morrison; mother, Daphne Henderson; Mr. Moore, Malcolm Hitchcock; Neglected Days, Jeanette Brooks, Rebecca Mathis, Willie Anton March, Bonnie Keller; Forgotten Days, Glady Smith, Mary Lee Little, Margaret Kirkland, Jo Ann Boatwright; Red Letter Days, Nancy Goodbread, Billy Goodson, Sharon Wilder, Suzanne Willis; stage designers, Ginger Crichfield, Billy Wall, Terry Boatwright, Raymond Olawski.

Gulf Life Company Is In Top 58 In US

JACK KENDRICK GUERNSEY Jacksonville, (Special)—Gulf

Life Insurance Company, with home offices here, this week announced it now has more than one billion dollars of life insurance in force and ranks as Florida's leading life insurance company.

The announcement was made by S. Kendrick Guernsey, company president, who also said this company is among the top 58 of the 1,145 life companies in America.

Established in Pensacola, Florida, in 1911, the company moved its home offices to Jacksonville in 1913. It took 39 years for the company to reach a half a billion dollars of life insurance in force, according to Mr. Guernsey, but the second half billion has been reached during the past six years.

The company, originally founded by the late T. T. Phillips and his brother, E. L. Phillips, now serves more than 1,200,000 policyowners and operates in eight states through 48 district offices and 12 ordin-

ary agencies. The company's personnel now numbers 1,750 and there are about 12,000 stockholders in the 48 states and five foreign countries.

Tampa-Miami-Homestead Asked As Link In Nat'l. Defense Road System

Joined by Congressman Haley of the 7th District and Fassel of the 4th District, Paul Rogers has introduced legislation in the National Congress to designate 296.5 miles of west coast road as a part of the interstate defense system of railroads.

The roads including connecting links from Tampa to Fort Myers, Miami and Homestead. Under the road bill, Florida indicates to Washington the roads desired to be included in the 1100 miles allocated to Florida and Road Board Chairman Wilbur Jones has already recommended this stretch of roadway, to the U. S. Bureau of

Public Roads. The opening of the bridge across Tampa Bay from St. Pete has served as a springboard to development of the lower west coast, with the result that a growth of 125% has been indicated since 1930 with predictions of up to 350% growth by '75 over '50.

The rattle-snake infested scrub palmetto sand land along the west coast is being subdivided into acre lots and city building sites with ready takers — and they're not all "visiting yankees" for we have some of them ourselves, "boughten and paid for."

ITCHING TORTURE PROMPTLY RELIEVED

A doctor's formula—soothing anti-itching Zemo—promptly relieves the itching, burning of skin rashes, eczema, psoriasis, ringworm and athlete's foot. Zemo stops scratching and so aids healing of irritated skin.

Meet transport demands "anywhere-anytime" ... with the 4-Wheel-Drive 'Jeep' Truck

On hard-surface roads the famous 'Jeep' Truck gives you 2-wheel drive performance to match any conventional truck. Where the good road ends—when snow, ice, mud, or roadless stretches bar the way to ordinary trucks—you can shift into 4-wheel drive to carry a full payload to almost any destination in any weather.

4-Wheel-Drive 'Jeep' Trucks are designed for the most rugged performance. Note the high-skirted fenders and functional body lines that resist dents. With power take-off, 'Jeep' Trucks operate winches, generators, compressors, and other belt driven machinery. They take power to the job—on or off the road.

Let us demonstrate the 'Jeep' Truck—America's lowest priced 4-wheel drive truck—for you.

Good friends and neighbors we think you'd like to know Gulf Life now has over

\$1 BILLION Insurance In Force

Yes—a Billion Dollars that protects you and your family—helps build homes and roads and bridges and an even more wonderful South! Not bad for a youngster only 45 years old! Just a few days ago, Gulf Life became one of the few billion dollar life insurance companies. We consider this news—good news. But we do not consider it a time for self-praise. Rather, it is a time for appreciation.

So this is to express our appreciation to our more than 1,200,000 policyowners whose faith and confidence have made this possible...

Our gratitude to the 1,750 Gulfifiers who have worked hard and long to achieve this goal...

Our thanks to the business and industries of the South for permitting us to share in their development and expansion...

Our congratulations to government leaders who have consistently envisioned a greater South and who have, consequently, created greater investment opportunities.

We've reached the billion dollar mark, yes. But we feel this is only the beginning because every day, more and more Southerners are saying:

billion dollar Gulf Life—that's my company!

Thirty-Three Patrolmen Will "Work" Turnpike

Thirty-three men of Troop K of the Florida Highway Patrol

SGT. HENRY RANDALL

will enforce traffic laws, promote safety and give assistance on the Miami to Ft. Pierce section of the Sunshine State Parkway.

Capt. C. E. Taylor, command-

pike Authority patrol, said 27 of the Florida State Troop troopers will man patrol cars on a 24-hour basis. Patrol cars on the toll road at any one time may range as high as nine during peak traffic hours, he said.

Patrolmen will work the usual nine-hour day, with overlapping shifts and staggered hours to give the most protection to motorists.

Troopers will use the same enforcement procedures on the turnpike as on other state roads—warnings, citation and arrests.

But there will be more emphasis placed on condition of vehicles. Cars and trucks with slick, worn tires; those, especially trucks, without rear lights, and vehicles with other defective equipment will not be permitted to enter the superhighway. Toll collectors have the power to refuse entry to drivers of such vehicles.

Capt. Taylor said the minimum 40-mile-an-hour speed

SAM P. TURNBULL, a soft-spoken, pleasant man of 51 years, worked his way up through the Florida State Road Department to become Chief Engineer for the Florida State Turnpike Authority, builder of the Sunshine State's most ambitious highway project.

limit will automatically keep a lot of old cars off the turnpike. They won't be able to keep pace.

Saying his troop expects to profit from the experiences of other turnpikes in the nation, Capt. Taylor explained that speed, bad equipment and false account for most accidents on other "pikes. Drivers are warned that the turnpike is a high-speed operation and "it is inadvisable to make any abrupt change at any time."

If drivers will use as intended the engineering facilities constructed into the turnpike, Capt. Taylor said, they will travel faster than on freeways.

This will require self-education and inquiry, however, for correct use of such features as acceleration lanes coming from toll plazas and deceleration lanes leading into interchanges.

Federal Tax Office At WPB Aids Taxpayers

The Internal Revenue Service has completed plans to render service to the taxpayers of Florida, who may need help in the preparation of their income tax returns, Laurie W. Tomlinson, District Director, announced today.

The new return and simplified instruction booklet with line-by-line explanation will make it easier for taxpayers to prepare their income tax returns.

"Self-help" will again be stressed during the 1957 filing period as the principal feature of the Internal Revenue Service taxpayer assistance program. This will insure an efficient operation and provide maximum assistance to the taxpayer public.

Although the West Palm Beach Office will be open daily Monday through Friday, from 8:30 a. m. to 5:00 p. m., there will be designated "Special taxpayer assistance days." On these days a full staff of agents will be available for consultation and advice in the preparation of returns. This policy will afford the taxpayer an opportunity to complete his return with the least possible amount of time being lost from his job.

In the Internal Revenue Office at West Palm Beach will offer "Special taxpayer days" on Monday of each week from January through April 15, 1957, and in addition on January 2, 3, and 4, February 5, 6, 7, and 8, and April 9, 10, 11, and April 12.

Adequate telephone service will be available from January 2 through April 15, 1957, and taxpayers are urged to use this means of securing assistance whenever possible.

Taxpayers are asked to complete their own return if possible, before seeking help from the Internal Revenue Service. A majority of the taxpayers can complete a full return without any assistance other than those provided by the form and the instructions. Since the 1956 forms are almost identical with last year's, we believe the percentage of those needing aid should be reduced materially.

Even those taxpayers with minor problems who first try to complete their own return, but are unable to do so, may secure the needed help by either a telephone call or a visit to our office on the "special assistance days."

Several thousand taxpayers who last year filed their return on Form 1040 are this year receiving in the mail the simplified punch-card, Form 1040A, which makes possible easier preparation of a return and is more readily processed by the Service.

FISHING IS GOOD on Lake Okechobee out from Slim's Fish Camp, as you can see by this string of black bass caught by Herman Stanley and son, Danny. This is only a part of the catch of 15. Nine of the largest are shown weighing an average of six lbs. each. Father and son are ardent fishermen and keep their boat docked at Slim's place.

The card form enables the taxpayer to provide all pertinent information on his income and exemption status, if his income was less than \$5,000 during 1956, consisting of salary or wages from which tax was withheld, and he had no more than \$100 total of other wages, dividends and interest, and if his deductible expenses were less than the standard 10 percent calculated as part of the taxable income up to that figure.

Persons who qualify to use the card form and who do not receive it may obtain a copy from the office of the District Director here in West Palm Beach. An instruction sheet accompanying the card form contains a reproduction of the card, to serve as a sample to fill out before preparing the form itself and to be retained by the taxpayer for his records.

It is very important that the taxpayer assemble all his data before preparing to make out his income tax return. Director Tomlinson stated. He should, if he works for salary and wages, be sure he has Forms W-2 from each employer for whom he worked during the calendar year and has a record of any interest, dividends, and any other type income he may

have received. He should have full information concerning any capital gain, such as sale of stocks and bonds. If the taxpayer has made substantial contributions and interest payments, he should consider using the long Form 100 and itemize his deductions. If he does this, he must be in a position to substantiate any deductions claimed.

Almost half of the workers of the executive branch are employed in direct support of our Nation's air, ground and sea forces as civilian employees of the Defense Department. Nearly a quarter of the executive branch employees are responsible for delivery of our mail and their dependents.

The Veterans Administration Pass-a-Grille Regional Office in Florida accounts for 714 employees of the 8 per cent national total. In one way or another, the work of Federal employees touches every American every day. For example, the Veterans Administration disburses 7 million dollars per month in this State. Checks to veterans amount to over 6 million; to fee basis physicians and dentists for care and treatment of veterans, about \$48,000; and to drug stores throughout the State for filling prescriptions for veterans' care, about \$28,000 per month. The Veterans Administration pays out only 4.5 per cent of its appropriation in salaries, an administrative feat of which any private concern would be proud.

The Pass-a-Grille Regional Office handles approximately 200,000 pieces of mail per month and over 15,000 people are interviewed during the course of one month. For the calendar year 1956 the Pass-a-Grille Regional Office employees' pay roll was \$3,607,974 of which amount \$467,235 was withheld for income tax purposes; Civil Service Retirement deductions amounted to \$214,610; Federal Employees Group Life Insurance deductions were \$23,217; and amount withheld for Savings Bonds, \$1,077,224.

The Civil Service system over the years since its founding in 1883 has been held to be a guarantee to the public of Government administration in the best interests of all the people. President Theodore Roosevelt said in 1896, "I am inclined more and more to feel that the observation in letter and spirit of the Civil Service law is the first requisite in obtaining clean, decent, efficient Government service in any branch or bureau of the Government." In 1956, 50 years later, President Eisenhower said, "Nowhere in the world have I met more efficiency, more dedication, more readiness to put in hours without counting them on the clock... than I have among the Civil Service."

With Lydia Pinkham's Compound and Tablets, there's no such thing as a "bad" time of month. Get Lydia Pinkham's Compound and Tablets today! Lydia Pinkham's Compound and Tablets is a remarkable soothing effect on the source of your distress. Doctor's tests, Pinkham's

stopped... or strikingly relieved pain and discomfort? 3 out of 4 women get glorious relief from Lydia Pinkham's Compound and Tablets, during and before your period. Many women never suffer from the first days of their period. This month, start taking Lydia Pinkham's Compound and Tablets. If you don't escape pre-menstrual tension... so often the cause of unhappiness. Get Lydia Pinkham's Compound... or convenient new Tablets which have blood-building herbs added. At drugstore.

CAPT. C. E. TAYLOR

Men of Troop K will live near the posts where they pick up their mail. Troop K is located in Ft. Lauderdale, Pompano Beach, West Palm Beach and Stuart.

There are 22 patrol cars, enough for the shifts and to provide transportation for troopers going to courts and hospitals and to permit periodic maintenance.

The first three troopers were transferred to the turnpike last year. Taylor transferred in November and the others have been added since then. All underwent thorough training before beginning turnpike patrol duties.

Besides Taylor and the 27 patrolmen, there are five others in administration—a first sergeant, sergeant and three corporals. The latter three have a combined experience of 50 years in traffic enforcement.

Capt. Taylor, a 17-year-man with the FHP, formerly was commander of Troop B, headquarters in Lake City. Before that he was administrative assistant to the director in Tallahassee, having been stationed earlier in Tampa, Ocala, Bartow and Bushnell. He now lives in Ft. Lauderdale.

First Sgt. Henry Randall, who has worked with Capt. Taylor at the Lake City Headquarters the past two years, will again be Capt. Taylor's top assistant with the turnpike group. Sgt. Randall is a veteran of 14 years in the department.

2,410,000 Employees In Civil Service

Federal agencies throughout the country observed the 74th anniversary of the signing of the Civil Service Act by President Chester A. Arthur on January 16, 1883. This law established the principle that those persons privileged to serve the American people in Government career posts should be selected on the basis of merit, and created the Civil Service Commission to "regulate and improve the Civil Service of the U. S." When the act was signed it covered approximately 13,800 jobs. Today more than 2,400,000 Federal employees work under an equitable employment system made possible by this law.

HIGH YIELD HYBRID CORN

TAILOR-MADE TO RESIST HELMINTHOSPORIUM BLIGHT

Florigold Hybrid Sweet Corn

Ferry-Morse Breeders have now developed a hybrid sweet corn that is highly tolerant to Helminthosporium turicum under severe conditions! Its name? **Florigold**.

Florigold's plants are about 6 1/2 feet tall. It matures 3 days earlier than Golden Security. Ears have 14 to 18 rows of kernels, good fill, and are 7 1/4" to 8 1/4" long—just right for packing 5 dozen to a crate. Kernels are rich, medium light-gold, narrow, tender and medium deep.

Quality, kernel color and size combine to make Florigold an outstanding shipping corn. For additional information concerning field performance in Florida, contact our representatives in Tampa.
